

## Automotive Solutions

# » Would you like to get a better sale price for your returned & repossessed vehicles?

Is your staff spending time marketing used cars instead of selling your Credit Union services?

Does remarketing of repossessed, off lease or balloon note vehicles sometimes make your Credit Union feel like an auto showroom?

Are those cars languishing in your parking lot, where they depreciate from \$3 to \$15 dollars a day?

Fiserv Automotive Solutions has the answer to your dilemma. We will work for you to strategically remarket your returned and repossessed vehicles. You are ensured of maximized value for your portfolio.

Make one call to Fiserv Automotive Solutions; we pick up the vehicle and manage it through the entire auction process. We transport the vehicle, complete the title transfer, coordinate accurate condition reporting, and our experienced staff represents your best interests at the auction.

If your Credit Union is spending time writing used car ads, posting autos for sale on the internet or soliciting your members to buy the cars, we can help you get back to your business.

Every day that a returned vehicle sits unsold, you lose money. We have the expertise to help move the inventory

quickly and the experience to get you a high return in a short amount of time.

Our network of auction transport, appraisers, and mechanics ensures that your credit union will receive the highest possible value for each and every vehicle.

Fiserv Lending Solutions has been selected as the vendor of choice by CUNA Mutual.
